

Position Title:	Industrial Hygienist
Location:	Fort St. John
Position Summary:	
The Industrial Hygienist will be responsible for the development and implementation of industrial hygiene programs, procedures and instructions. Following all safety, legislative or client requirements, the Industrial Hygienist will also review and update the hygiene programs as needed.	
Job Description:	
Responsibilities • Develop, revise and implement industrial hygiene programs, procedures and instructions. • Review of industrial hygiene field protocols and reports. • Provide technical support to project team. • Identify gaps between current practices and company programs, procedures, regulatory requirements, industry standards and best practices. • Develop project-wide IH programs and procedures as assigned by supervisor and QHSE director. • Provide program oversight and input to continuous improvement assessments. • Manage IH subcontractors, supply inventory, purchasing and budgeting for lifecycle of the project. • Keep abreast of new legislation, trends and regulations. • Ensure that all required documentation is reviewed and stored within the project's document control system. • Other duties as assigned.	
Knowledge, Skills, and Abilities • Good understanding of occupational health and safety legislation, both in federal and provincial jurisdictions. • Extensive knowledge in occupational health and hygiene standards, guidelines and best practices from Canadian Federal and British Columbia (or other provincial) governments. • Familiar with IH laboratory analysis and direct reading instruments. • Demonstrated ability to write technical reports. • Good work ethic and dedication to workplace quality, health and safety. • Ability to work independently and collaboratively with other departments. • Flexibility to adapt to all situations and varied hours of work. • Ability to anticipate work needs and follow through with minimum direction. • Excellent written, verbal communication, and collaborative skills. • Advanced level of computer skills desired with Microsoft Office applications (Excel, Word, PowerPoint, and Outlook).	
Experience/Qualifications:
